

Motor Trades Association of Australia

2008 Automotive Recyclers 'IRT' Meeting

The 2008 Automotive Recyclers International Round Table Meeting is to be held on 9 and 10 November 2008, immediately following the APRAA Conference and Trade Show which runs from 6 to 8 November 2008. The venue for both is the Novotel Pacific Bay Resort in beautiful Coffs Harbour.

The 'theme' of the 2008 'IRT' Meeting is to '*Promote business relationships and to improve the public image and social status of the Automotive Recycling industry*'.

Some of the significant topics that will be discussed include:

- maximising recycled parts usage and the environmental advantages of recycled parts;
- improving the industry's image within the automotive sector, with government, regulatory authorities and the broader community.; and
- sharing and progressing the issues, barriers, laws and systems across the world for the processing of End-of-Life Vehicles (ELVs).

With the Automotive Recycling industry globally facing so many challenges this is a significant opportunity for national associations to share their experiences and plan for the future.

All automotive recyclers are encouraged to discuss agenda items with their national representative associations in order to make this year's event one to be remembered.

APRAA Conference delegates are welcome to extend their stay in Coffs Harbour and attend the IRT Conference as an observer. If you are interested in attending the IRT Conference, please nominate this on your APRAA Conference & Trade Show Registration Form.

Keep monitoring the APRAA website, www.apraa.com, for more information on the 2008 IRT Meeting and APRAA Convention & Trade Show and remember **registrations close on Friday 3 October 2008**.
